

ABB i-bus[®] KNX Energy Ecosystem

*Partner offering: Visualization Software provided by Alexander Maier GmbH

Technical Details

	Measure & collect	Visualize & analyze	Control & optimize	More detailed information
EQ Meters A, B, C Series	<ul style="list-style-type: none"> Transformer and direct connected (to 80A) 1, 3 & 4 wire devices Import, export and tariff measurements. M-Bus, Modbus, IR communication MID certified 			
Wall Box (Terra)	<ul style="list-style-type: none"> MID certified internal Meter (Modbus TP & TCP/IP) 			
Energy Module (EM/S3.16.1)	<ul style="list-style-type: none"> Current measurement (to 20A, TRMS) Measured energy and power consumption Instrument values (U, I, f, Pf) 		<ul style="list-style-type: none"> ABB Load Control function (Client) 	Link
Switch Actuator with Energy Function (SA/Sx.16.6.2)	<ul style="list-style-type: none"> Current measurement (to 20A, sinusoidal) Calculated energy and power consumption 		<ul style="list-style-type: none"> Load switching (to 16A) ABB Load Control function (Server) 	Link
Switch Actuator (SA/Sx.x.x.2)			<ul style="list-style-type: none"> Load switching (to 16A) ABB Load Control function (Server) 	Link
Energy Actuator (SE/S3.16.1)	<ul style="list-style-type: none"> Current measurement (to 20A, TRMS) Measured energy and power consumption Instrument values (U, I, f, Pf) 		<ul style="list-style-type: none"> Load switching (to 16A) ABB Load Control function (Client/Server) 	Link
Boiler/Chiller Interface (BCI/S 1.1.1)			<ul style="list-style-type: none"> Demand dependent interface to heat/cooling generation (0-10V, relay) 	

	Measure & collect	Visualize & analyze	Control & optimize	More detailed information
Heating/Cooling Circuit Controller (HCC/S2.x.x.1)			●	<ul style="list-style-type: none"> Demand dependent control of flow temperature Link
Dali Gateway Premium (DG/Sx.64.5.1)			●	<ul style="list-style-type: none"> ABB Load Control function (Server) Standby shutdown of the ballast Link
Modbus KNX Gateway (MG/S11.100.1.1)	●			<ul style="list-style-type: none"> Universal communication interface Modbus to KNX (bidirectional) Up to 100 data points and devices
Binary Input (BE/Sx.x.2.1)	●			<ul style="list-style-type: none"> S0 impulse detection Link
Meter Interface Module (ZS/S1.1)	●			<ul style="list-style-type: none"> IR to KNX Interface for ABB EQ Meters (A & B series) Energy consumption, power & instantaneous values (U, I, f, Pf) Link
EQmatic Energy Analyzer (QA/S3.xx.1)	●	●		<ul style="list-style-type: none"> Data Logger and communication interface to M-Bus metering devices (unidirectional) M-Bus (16 & 64 devices) <ul style="list-style-type: none"> Web user interface provides graphical analysis functions, e.g., historical data, instantaneous values, benchmark functions, cost allocation according to consumer groups, etc. Data stored locally; no cloud connection required
ControlTouch (CT/S2.1)		●	●	<ul style="list-style-type: none"> Visualization for smartphones, tablets and Windows computers (iOS and Android app) Visualize energy values as graphs <ul style="list-style-type: none"> Maximize use of self-generated energy and grid capacity
IP Router, Secure (IPR/S3.5.1)	●			<ul style="list-style-type: none"> Communication interface KNX (TP) to KNX (IP)

	Measure & collect	Visualize & analyze	Control & optimize	More detailed information
Application Controller (AC/S1.x.1)	<ul style="list-style-type: none"> Communication interface to HVAC components <ul style="list-style-type: none"> • KNX • BACnet (500 Datapoints) 	<ul style="list-style-type: none"> Web-based user interface monitoring (graphical functions) 	<ul style="list-style-type: none"> Demand dependent optimization of KNX HVAC installation 	
ABB Ability™ Building Analyzer	<ul style="list-style-type: none"> Building Edge, MATRIX or NEXUS as data source 	<ul style="list-style-type: none"> Tracks building and utility data on cloud level Advanced monitoring and targeting functions Multi-site buildings 		
RoomTouch 5" (RT/U5.x.1-xxx)		<ul style="list-style-type: none"> Display element available to visualize energy values 		
SmartTouch 10" (ST/U10.x.1-xxx)		<ul style="list-style-type: none"> Display element available to visualize energy values 		
SCU 100/200	<ul style="list-style-type: none"> Communication interface to Modbus Meters, CMS Sensors and pulse meters 	<ul style="list-style-type: none"> Web user interface provides graphical analysis functions Data stored locally; no cloud connection required 	<ul style="list-style-type: none"> Load shedding logics 	Link
EisBaer SCADA	<ul style="list-style-type: none"> Multiprotocol Gateway to common field buses and metering systems 	<ul style="list-style-type: none"> Visualization and automation Software. 	<ul style="list-style-type: none"> Peak Load Shedding Dynamic Load Management (DLM) 	Link
